

# EMIDS

---

Premier provider of healthcare IT services and leading industry solutions including healthcare application development, healthcare data migration, and mobile healthcare software.

# Problem

---

---

**Cumbersome annual performance reviews due to reliance on Excel.**

---

**Little to no personal touch in performance reviews.**

---

**Time consuming oversight to ensure all employees have completed their performance reviews.**

# Solution

Initiated digital transformation for the employee engagement software.

---

Implemented continuous feedback loops instead of bi-annual performance reviews.

---

Integration with Emids existing internal work management system.

# Outcomes

**89% of Employees** believed Emids's new "People Enablement" software makes it easier to communicate and share feedback.

**93% of Employees** believe Emids is moving towards the right direction in investing with Engagedly's software solution.

**16% Employee Satisfaction Improvement** after software integration.
